**SABRETECH®QS**  
Active antimicrobial barrier  
bonds to treated surfaces for  
long-term protection

*ATP scores and acts as an effective  
bacteriostatic coating*

- ✓ Protective barrier creates a bacteriostatic finish on high-touch, high-risk surfaces
- ✓ Environmentally friendly non-toxic/non-leaching, hypoallergenic antimicrobial technology
- ✓ Promotes lower ATP (Adenosine Triphosphate) scores
- ✓ Fast and convenient spray and wipe application
- ✓ Cured treatments remain effective in the presence of bleach between disinfections
- ✓ Supports accreditation mandates for patient protection

EPA Registration Number 92057-3
